

Covid 19 Level 2 - we've got you covered

New Zealand's largest and most versatile events venue, Mystery Creek, remains open during level 2. While Covid 19 has put the kibosh on major events, we are still here and ready to host your next event of up to 100 people.

Here are just a few things we have put in place to ensure that your next event at Mystery Creek is both safe and enjoyable:

Unparalleled space: with 114 hectares of land, 7 unique event spaces, unlimited parking, and ample facilities such as restrooms and kitchens – meeting social distancing requirements could not be any easier.

Contact tracing: Following government guidelines, we have tools in place to effectively capture visitor data for contact tracing such as official QR codes stationed at every entry.

Event layout customisation: Our experienced event managers can assist you with configuring our different spaces to allow for adequate spacing without detracting from the event.

Cleaning: We maintain a both frequent and thorough cleaning process and schedule for shared spaces, and ensure facilities are well stocked with soap, and paper towels where hand dryers are not available.

Hygiene: At mystery creek we have ample facilities for visitors to be able to regularly wash their hands as well as many hand sanitiser systems installed throughout.
